

ALLIANCE OF MARINE MAMMAL PARKS AND AQUARIUMS

An international organization dedicated to conservation through public display, education, and research

March 24, 2007

Dr Cécile Gaspar, DVM
Moorea Dolphin Center
BP 1021 Papetoai
98729 Moorea
French Polynesia

Dear Cécile:

Congratulations. Moorea Dolphin Center has earned accreditation from the Alliance of Marine Mammal Parks and Aquariums following the accreditation inspection March 5-6 completed by Jim Antrim and Scott Klappenback.

The review team's evaluation report, which takes into consideration all criteria set forth in the association's Accreditation Program and the Alliance Standards and Guidelines, has been accepted by the Accreditation Commission and the Alliance Board of Directors.

As an accredited member of the Alliance, Moorea Dolphin Center joins the organization's exemplary member facilities who are respected globally and who collectively represent the greatest body of professional expertise and knowledge regarding marine mammal husbandry worldwide. Please use the Alliance accreditation logo proudly on your Web site.

As you know, Alliance member facilities are required to participate in a re-accreditation of their facility five years from the date of their previous inspection. If you have any questions, please contact Billy Hurley. I look forward to seeing you at the upcoming Alliance meeting, where you will receive your certificate of accreditation. Thanks for your good work in support of the Alliance.

Sincerely,

Dave Merritt
